UCSF TODAY & TOMORROW

SATURDAY-FRIDAY OCT. 30-NOV. 12 VOL. 2 NO. 3 UC-SAN FRANCISCO

Honors & Awards

ILZA VEITH, Prof. & Vice-Chrmn. Dept. Hist. Hlth. Sci. & Prof. Dept. Psychr.: Guest lecturer at Menninger Foundation in Topeka, Ka. Also visiting Prof. at U Kansas Schl. Med., week of Oct. 9 .... IRA D. GLICK, Chief, Inpatient Treatment & Res. Ser. Dir, Med. Student Ed., Psychr. Dept.: Presented paper, "Indication and Contraindications for Family Therapy: Changing Concepts", UC-Davis in Sept. Also, "Short Versus Long Psychiatric Hospitalization: A Controlled Study: Two Year Results", Mt. Sinai, Schl. Med., N.Y. in Sept. ... WILLARD HARRIS, Assoc. Dr., SFGH Division Outpatient & Comm. Ser.: Presented paper, "Ambulatory Health Care Nursing" at the Fourth National Institute and Conference recently held by the National Black Nurses' Assoc., Hilton Hotel, S.F. ... SUSAN WALKER FARMER, Res. Psych. Hormone Res. Lab; MARTHA JO WHITEHOUSE, Lec., ACM & Clin. Instr. Med.; MARTHA HARKEY, grad. student, Dept. Pharma.: Participated in Career Day Workshop for high school girls at Mills College, Oakland, Oct. 23. ... J. ENGLEBERT DUNPHY, Prof. Surg. Emrts., Assoc. Chf. Stf. Educ., VA; JOHN W. SEVERINGHAUS, Prof. Anes.: Lectured at the American Society of Anesthesiologists Meeting, Oct. 9-13. ...

Almanac

PHILIP GUTIN, Rsd. Neurosurg.: Received the Congress of Neurological Surgeons' Resident's Award at the Congress meetings in New Orleans, Oct. 28.

KATHLEEN CHU, Second yr. Nur. Stu.: Received 1976 Allstate Foundation Nursing Scholarship Award, early Oct.

MICHAEL J. HOGAN, Emeritus Prof. & former Dept. Chrmn. Opthalmology: Honored at the Conference's opening session in Las Vegas, Oct. 6.

GARY CUPIT, Asst. Clin. Prof., Schl. Pharmacy: Appointed Dir., Drug Info. Analysis Ser.

ILZA VEITH, Prof. & Vice-Chrmn. Dept. Hist. Hlth. Sci. & Prof. Dept. Psychr: Presented Gold-Headed Cane Award at U Kansas Schl. Med., Oct. 9.

IRA D. GLICK, Chief, Inpatient Treatment & Res. Ser. Dir., Med. Student Ed., Psychr. Dept.: Promoted to Prof. Psychr. Rsd. in July, '76.

MIRIAN HIRSCH, formerly Assoc. Lib. & Info. Analyst, UCLA Biomedical Lib: New Lib., Barnett-Briggs Medical Librarian, SFGH.

Visitors

NILS DARLE, Dept. Surg., U of Gothenburg, Sweden: Spoke at Trauma Conference recently at SFGH.

News Briefs

Botulism in infants has been diagnosed, apparently for the first time, by UCSF pediatricians and neurologists. They report their findings in the September 30, 1976 issue of the *New England Journal of Medicine.*

This finding in two infants, both of whom were breast-fed, has opened the door to speculation about the cause of this condition, which up to now was thought to come primarily from improperly canned food. The toxin was found in the intestinal contents of one of the infants as late as six weeks after initial diagnosis. The speculation is that the toxin is produced by bacteria (*clostridium botulinum*) which grow in the infant's intestine from botulinal spores that are swallowed. These spores are widely distributed in our environment.

Also significant according to the researchers is the fact that the symptoms of these infants were similar to other muscle-nerve disorders, leading to speculation that in the past infants may have been misdiagnosed as having myasthenia gravis or a like disorder when in fact they may have had botulism.

The UCSF authors are Bruce O. Berg, Associate Professor of Pediatrics and Neurology and Chief of Child Neurology; Jackson B. Pickett, Assistant Professor of Neurology; Edward R. Chaplin, senior resident in Child Neurology; and Mary-Ann Brunstetter-Shafer, pediatric fellow. The UCSF physicians were responsible for alerting the California State Department of Health to look for botulism which they subsequently diagnosed in two Los Angeles infants.

The State Department of Health released information of these four cases which raised the suspicion that botulism could lead to sudden infant death, but the UCSF physicians do not see this as a likely possibility. In sudden infant death, the infant is usually without symptoms. In contrast, botulism takes several hours to a day to develop and presents definite muscle-nerve weakness, they point out.

During the early 1900's, UCSF, under the late epidemiologist Karl F. Meyer, did pioneering research into the cause and prevention of botulism. Meyer and his colleagues, working in the UCSF Hooper Foundation, were influential in getting state and federal canning inspection laws enacted.

A free, closed circuit television system for patients is being developed by UCSF hospitals and clinics project Advisory Board. Public participation is invited. The new closed circuit TV system will begin broadcasting to patient sets in the 560-bed UC and Moffitt Hospitals within the next month. The new system, which had originated from the Volunteer Office, will provide health education programs as well as quality entertainment. Wendy Squyres is director of the project which will purchase outside commercial and non-commercial programs and has also the capability for originating new programs in a studio in Moffitt.

For the first time the campus will conduct the United Way Campaign one day only, Wednesday, November 10. Some 300 UCSF Donor representatives will attend a 9 a.m. to noon training session in Millberry Gymnasium on campaign day. That afternoon they will distribute donation cards and envelopes to assigned co-workers in their departments. Donations will be confidential and can consist of either cash, check, payroll deduction, or a "bill later" request. Donor representatives for the evening and night shifts will meet from 8 to 9:30 p.m. in Chancellor's Conference Room, 118-S, on Tuesday, Nov. 9. They will collect donations from co-workers until midnight. Sue Clark, director of University Relations, is chairperson of the campaign.

United Way agencies sponsor such community activities as child day care centers, service centers for the elderly, teenagers and various ethnic and immigrant organizations. Nationally, some of these agencies provide fellowship and research funds for UCSF scientists. A brochure describing the 190 Bay Area agencies served by United Way will be given to each UCSF employee. Donors may indicate the agency to which he or she will donate funds.

Applications for the dental hygiene program will be accepted by the School of Dentistry through December 1, 1976, for the class beginning in the Fall of 1977. The program seeks both male and female applicants as well as applicants from all ethnic backgrounds. The School grants a bachelor of science degree in dental hygiene which prepares graduates to become licensed dental hygienists. Two years are spent in residence at this campus in full-time professional studies. Admission prerequisites include at least two years of university level coursework including one year each of English, psychology, inorganic chemistry, biology and physics, and one-half year of organic chemistry. The rigorous science background is required for the University's program because it attempts to train not only superior clinicians in dental hygiene but also teachers and leaders in the field. The minimum grade point average accepted is 2.4 for California residents and 2.8 for non-residents. Preference will be given to applicants with "B" average or better. For more information call x2737.

The UCSF EMI body scanner, which has been functioning in the Department of Radiology since the middle of February, was officially dedicated as the Helen Greenspan Memorial Room, Monday, October 25 in a brief ceremony. The room, located at 347 M, was made possible by a gift from Sara and the late Benjamin Greenspan in memory of their daughter, Helen. A son, Richard Greenspan, now head of the Department of Radiology at Yale, was Professor and head of the Experimental Laboratories at UCSF for five years. Special guests at the ceremony included Sara Greenspan, Dr. & Mrs. Richard Greenspan, and their son, Benjamin, a student at UC-Berkeley.

30
Saturday

Division of Urology Grand Rounds. 14 fl. Moffitt. 9 a.m.

Haight Ashbury Film Collective: *Woman in the Dunes.* $1.75 each or 4 shows for $5. Cole Hall. 8 p.m.

1
Monday

Brown Bag Tour: *CVRI.* For further information call x4394. CVRI Conference Room, 13th fl. Moffitt. Noon-1 p.m.

Death Film Series: *Widows.* 301 HSW. Noon. Free.*

Hospitals & Clinics: *New Employee Orientation.* Refreshments, exhibits, slide presentation, free guide to entering the UCSF system. Veteran employees are welcome to attend. For further information call x3022. Women's Lounge, Millberry Union. 1-2:30 p.m.

CVRI Seminars and Conferences: *Calibrated Pulmonary Arterial Blood Flow Using Ultrasonic Doppler Method.* Malcolm B. McIlroy, Prof. Med. & CVRI. 1364 S. 4 p.m.

2
Tuesday

Department of Psychiatry Grand Rounds: *Brief Psychotherapy and the Consideration of Change.* Case presentation with Ed Oklan, Rsd. Psychr. Faculty and staff only. LPNI Aud. 11 a.m.-12:30 p.m.

Pharmacology Seminar: *Structural Basis of Neurosecretion.* John Hauser, Asst. Prof. Physio. 1269 HSW. Noon.

International Folk Dancing. Led by Dean Linscott. No partner needed. Everyone welcome. Millberry Gym. Noon-1:30 p.m.*

Sport Film Series: *1973/74 NBA Highlights and the Buck's 1974 Highlights.* 300 HSW. Noon. Free.*

Brown Bag Tour: *Orthopedics.* For further inforamtion call x4394. 303 HSW. Noon-1 p.m.

Practical Philosophy - The Ethics: *Newton & Ethic of Law & Order, Kant, Wesley's & Work Ethic.* Chauncey D. Leake, Sr. Lec., Hist. Hlth. Sci & Pharmacol. 214 S. Noon.

Obstetrics, Pediatrics and Anesthesiology Conference. Robert Creasy, Assoc. Prof., Ob/Gyn; Joseph Kitterman, Assoc. Prof. Rsd., Ped. & CVRI; Sol Schnider, Prof. Anes., Ob/Gyn. 1486 M. Noon.

3
Wednesday

Division of Urology Grand Rounds: 14th fl. Moffitt. 8 a.m.

Dermatology Grand Rounds: *Clinical Virology.* John Mills, Asst. Prof. Rsd., Dept. Med.; SFGH, Path Aud. 8:10 a.m.

Chief of Service Rounds, Dept. Pediatrics. 666 M. 9 a.m.

Medical Grand Rounds: *Reiter's Syndrome.* William Seman, Asst. Prof. Med., Div. Rheumatology. Cole Hall. 10:30 a.m.-noon.

Reproductive Endocrinology Workshops. Maria Seron, Post Grad. Res. Endocrinologist. 1486 M. Noon.

Anatomy Department Seminars: *Inherited Retinal Dystrophy and Rod Outer Segment Disc Shedding in the Retina.* Matthew LaVail, Assoc. Prof. Anatomy. 1309 HSE. Noon-1 p.m.

Brown Bag Tour: *Kidney Transplant Center.* For further information call x4394. 884 M. Noon-1 p.m.

Laid-Back Lunch Music. Kathy Freund, guitar & vocal, country/folk. MU Lounge. Noon. Free.*

Endocrinology Seminar: *Function of Progesterone in Pregnancy Maintenance.* Pentti K. Siiteri, Prof. Dept. Ob/Gyn. 758 S. 2 p.m.

Physiology Seminar: *Substrates of Fetal Metabolism.* Giacoma Meschia, U of Colorado, Denver. 758 S. 4 p.m.

Child Neurology Conference. 666 M. 4:30 p.m.

Division of Urology — Pediatric Urology: *Meningomyelocele and the Urologist.* Jan D. van Gool, University Children's Hospital, Utrecht, Holland. 14th fl. Moffitt Solarium. 4:30-6 p.m.

Radiology Grand Rounds: *Interesting Cases from Mt. Zion Hospital.* Alan Davidson, Assoc. Clin. Prof. Radiol.; and colleagues. 303 HSW. 5-6:30 p.m.

Swine Flu Shot Schedule

Community:
Sunday, November 7, 14, 21. 9 a.m.-Noon and 1-4 p.m. Millberry Lounge.

Students:
Mondays, Wednesdays and Fridays, November 1-21. 3:30-4:45 p.m. Student Health Services, 380 U.

Employees:
Will be announced later. Watch for posters. Concerned employees may call x4021 for more information.

4
Thursday

Pediatric Grand Rounds: *Coarctation of the Aorta.* Paul Stanger, Assoc. Prof. Ped. 664 S. 8:30-10 a.m.

Neurology Grand Rounds. 664 S. 11:10 a.m.-12:15 p.m.

Jack Gimbel Lectures: *Sick Sex — The Patient's Problem.* Joshua Golden, Assoc. Prof. Dept. Psychr. & Dir. Sexual Dysfunction Clinic, UCLA. Cole Hall. Noon-1 p.m. Free.*

Brown Bag Tour: *Radiology/ Inpatient.* For further information call x 4394. 302 HSW. Noon-1 p.m.

Women's Health Series: *Current Alternatives in Birth.* 303 HSW. Noon-1 p.m. Free.*

Division of Urology — Urologic Physiopathology: *Endocrine Functions of the Kidney.* Stephen Taylor, Rsd. Urol. 14th fl. Moffitt Solarium. 4:30-6 p.m.

Performing Artists: Cecil Lytle, pianist. $1.50, UCSF Students, MU members; $2 General. Cole Hall. 8 p.m.

5
Friday

Clinical Conference of the Child and Adolescent Service. LPNI Aud. 9:30-11 a.m.

Ambulatory & Community Medicine, Primary Care Lecture Series: *Update on Viral Hepatitis.* Melvin Butler, Chief Gastro., Letterman. *Management of Common Thyroid Disorders.* Francis Greenspan, Clin. Prof. Med. 455 A. 11 a.m.-1:15 p.m.

Department of Pharmaceutical Chemistry Seminars: *Metabolic Formation of Chemically Reactive Species.* Neal Castagnoli, Prof. Chem. & Pharm. Chem. 664 S. 11 a.m.

Brown Bag Tour: *Cancer Research Institute.* For further information call x4394. 1296 M. Noon-1 p.m.

Jack Gimbel Lectures: *Sick Sex — The Doctor's Problems.* Joshua Golden, Assoc. Prof. Dept. Psychr. & Dir. Sexual Dysfunction Clinic, UCLA. Cole Hall. Noon-1 p.m. Free.*

Cole Hall Cinema: *Nashville.* $.75 Children under 14; $1.25 UCSF Students, MU Members, Senior Citizens; $1.50 UCSF Employees, other Students; $1.75 General. Cole Hall. 6:30 & 9:30 p.m.

6
Saturday

Division of Urology Grand Rounds. 14th fl. Moffitt. 9 a.m.

Haight Ashbury Film Collective: *Grand Illusion, Rules of the Game.* $1.75 each or 4 shows for $5. Cole Hall. 8 p.m.

8
Monday

Nursing Careers Project, Dept. Social & Behavioral Sciences: *Traditional Chinese Birth Practices.* Barbara Pillsbury, Dept. Anthropology, Cal. State U, San Diego. 1373 3rd Ave. 9-11 a.m.

Death Film Series: *You See, I've Had a Life; How Could I not be Among You?* 301 HSW. Noon. Free.*

CVRI Seminars and Conferences: *Functional Heterogeneity of Renal Proximal Tuble.* Juha P. Kokko, Prof. Internal Med. & Chief Nephrology, U Texas Health Science Center, Dallas. 1364 S. 4 p.m.

Extended Programs in Medical Education

Current Aspects of Mental Retardation. Nov. 3-5. Peacock Court, Mark Hopkins Hotel, Number One, Nob Hill, S.F. Presented in association with the Division of Child Neurology, Depts. Neurology and Pediatrics. Will emphasize the current status of mental retardation in the U.S.

Group Therapy Seminars. Nov. 8-12. Lake Merritt Hotel, 1800 Madison Ave., Oakland, CA. Presented in association with the Mental Hygiene Clinic of the VA, Oakland, Consists of demonstrations, participation, lectures and an experience in group process.

Pediatric Allergy. Nov. 8-12. Toland Hall. Presented in association with the Dept. Pediatrics. An intensive workshop type of course for physicians who treat pediatric patients.

Emergency Medicine — Theory and Practice. Nov. 11-12. Cole Hall. Presented in association with the Division of Emergency Medicine. Designed for physicians practicing Emergency Medicine.

For registration information call x2483. For program information call x4251.

Women's Health Series: *Women and Prescription Drugs.* 303 HSW. Noon-1 p.m. Free.*

Division of Urology — Nephrology: *Regulation of Potassium Excretion.* Floyd Rector, Prof. Med., Sr. Scientist, CVRI. 14th fl. Moffitt Solarium. 4:30-6 p.m.

Performing Artists: Francesco Trio. $1.50 UCSF Students, MU members; $2 General. Cole Hall. 8 p.m.

12 Friday

Clinical Conference of the Child and Adolescent Service. LPNI Aud. 9:30-11 a.m.

Ambulatory & Community Medicine, Primary Care Lecture Series: *Medical and Social Aspects of Aging in the U.S.* Paul Vietzke, Acting Medical Dir. Home Care Unit; M.J. Allison, Coordinator, Home Care Unit; Dorrie Kamp, Clin. Social Worker. *Health Care Delivery in U.S.: Trends and Changes.* Joseph Barbaccia, Prof. Amb. & Comm. Med. 455 A. 11 a.m.-1:15 p.m.

Department of Pharmaceutical Chemistry: *Biochemical and Pharmacological Aspects of Bronchodilator Ester Prodrugs.* Leif A. Svensson, Visiting Prof., Assoc. Dir. Organic Chem., Draco Lab. & Asst. Prof. Organic Chem., U Lund, Sweden. 664 S. 11 a.m.

Cabaret Night: Mark Naftalin, Blues-Rock Pianist and the Pointless Sisters. Students $1, General $1.50. Steninger Gym. 8 p.m.

1976 AAMC Meetings

The 1976 Annual AAMC Meetings will be held in San Francisco from Nov. 11-15. These meetings are open to all individuals with an interest in promoting medical education in the U.S. and abroad. The theme of this centennial meeting is "The Next Hundred Years", with a focus on the future of medical education, medical practice, and biomedical science. Included will be discussions of such items as continuing education, costs and demands for medical services, women in medicine, minority contributions to medical education, and educational stress on medical students. For further information call x2342.

& Upcoming!

Ecology of Microbes

12-14

Asilomar Conference Grounds, Pacific Grove, Ca. November 12-14. For further information contact Remo Morelli, Biology Department, San Francisco State University, S.F., CA 94132.

Psychologies East & West

13 & 14

Psychologies East & West. November 13 & 14. Sheraton Palace Hotel, S.F. Co-sponsored with the Institute for the Study of Human Knowledge. Discussions on The Gurus, Healers of India, Assumptions of Western Psychology, Extended Conceptions of Man, Psychology of the East, and the Nature of Sufi Knowledge. For further information call 948-9428.

Sterling Bunnell Lecture

19 & 20

Toland Hall. November 19-20. Presented by the School of Medicine, Department of Orthopaedic Surgery. A critical discussion of Joint Prostheses in the Upper Extremity.

Parenting The Disabled Child

20 & 21

A symposium — presented Saturday and Sunday, November 20 and 21 in Cole Hall. Sponsored by the Vice-Chancellor's office of Public Programs and Continuing Education, the Departments of Continuing Education in the Schools of Medicine and Nursing, and the San Francisco and National Easter Seal Society.

It is designed for families of developmentally delayed or disabled children, and for those who provide health and education services to these infants and their families. The focus will be on the value of the parent as a constructive force in the care of the child as early in life as possible. For further information call x2894.

SFGH Briefs

The first comprehensive dental care program at SFGH has just started, conducted by UCSF School of Dentistry. Services of the new 12-chair clinic are available to any resident of San Francisco. This supplements the Oral Surgery Clinic, which has been providing services at SFGH for many years. Ved M. Khosla, FDS, RCS (Edin.), Associate Professor of Oral Surgery, will serve as Chief of both the Clinical Dentistry and Oral Surgery services at SFGH. Treatment is performed by senior dental students at the UCSF School of Dentistry, under supervision of the School of Dentistry faculty. The clinic is located in modern quarters on the first floor of the Outpatient wing of SFGH. Hours are 9 a.m. to noon and 1 to 4 p.m. Telephone numbers are 565-8284 and 565-8104.

The Pediatric Health Assessment Clinic at SFGH completed 75 screening examinations for children entering the first grade this fall. Forty of these examinations revealed health problems which required follow-up care. The examinations were conducted as part of the new Statewide Child Health and Disability Prevention Program which requires health screening for all entering first graders. Delmar Pascoe, UCSF Clinical Professor of Pediatrics and Chief of the SFGH Pediatrics Clinic, was a co-author, with Assemblyman Willie Brown, of legislation establishing this program in California. Health problems disclosed as a result of the SFGH screening were: dental problems, 14; cardiac conditions, 5; orthopedic, 2; allergies, 5; vision problems, 3; hearing problems, 2. At the request of their parents, two children were referred for help with learning and behavior problems.

Deadline for Copy for the next issue of **Today/Tomorrow** which will cover events from November 13-26 will be 11 a.m. Tuesday Nov. 2. Send your copy to News Services, 1475 4th Ave., attn. Calendar.
